PLAYERFIRST V2.2

@HOME CHALLENGES: OVERVIEW

WHAT ARE @HOME CHALLENGES?

@Home Challenges are a series of activities, compiled by an athlete's coach. If added, they can be found in the schedule section of the Playfirst App (Version 2.0 and newer).

Athletes complete the challenge, input their results and optional evidence (photos, links, videos) and then submit to their coach. If the coach activates team leaderboards, those can also be viewed as athletes complete their challenges.

ATHLETE LOGIN

When an athlete goes into PlayerFirst to complete a challenge, they must be logged in under their athlete profile (NOT the parent). Parents cannot complete the challenge for their player.

TIMEFRAME

@Home Challenges can only be completed during the challenge timeframe (schedule time of event). There will also be a specific time that people can start viewing the challenge. Once a challenge has been submitted, it cannot be redone.

DEVICES

PlayerFirst can be used on both Android and Apple devices (phones and tablets).
